

Dear Governor Codey, I am requesting that this law remain in effect. The protection that it provides is priceless. There are not as many high pressure calls getting through. There is no more interruption during dinner time or anytime. However some continue to get through. I think this effort must be strengthened if anything in no way should it be weakened. The people of New Jersey have spoken out about our views on this issue and it has not changed. If we want them we will call them. In summary The New Jersey's consumer protection laws must not be weakened. Strengthen it.

Thank you,

Rosalind Laster
